First, Maya put her crayons in the backpack. She would use the crayons to draw pictures for her new teacher, Mrs. Smith. Next, she put her scissors in the backpack. She could use the scissors to cut out hearts for her best friend. Next, Maya put in her new princess pencils. She thought of all the stories she would write with them. And some people simply prefer other sports, like Australian rules football or rugby, for example.

3. IN AUSTRALIA, YOU HAVE A HIGH CHANCE OF DYING FROM ALL THE POISONOUS/LETHAL/ DEADLY THINGS.

Many of the world's most venomous snakes and spiders are in Australia, but with technology in anti-venoms and treatments, it is rare to die from a snake or spider bite in Australia.

The north of Australia is home to the world's largest species of crocodile, the saltwater crocodile. Males can occasionally grow to lengths of over 6 metres, big enough to eat a whole human being! Each year one or two people are eaten by crocodiles in Australia, but you can greatly reduce your risks by not camping next to an enclosed riverbank that has a
