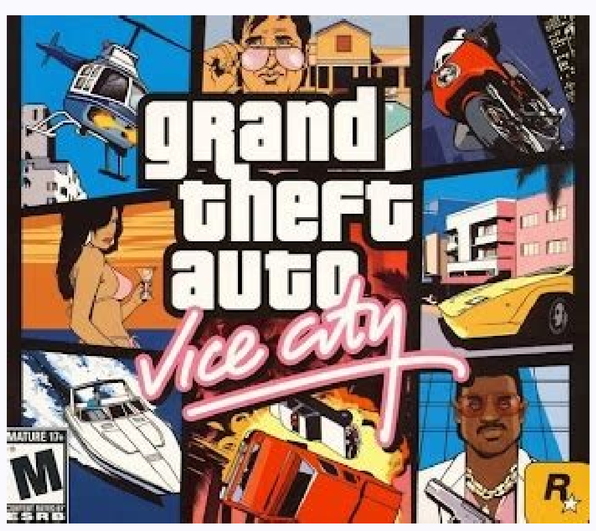
Continue



While we know GTA 6 is officially in development, Rockstar has given us basically nothing about the game's setting, characters, features and more. The reason for that, we now know, is that the company wants the unveiling of the game to "exceed players' expectations" and requires a little more time in the over to get there.Those plans went a tad awry recently when a hacker illegally accessed and downloaded confidential data from Rockstar's servers that included over 90 videos of unfinished gameplay. The breach was confirmed by Bloomberg's Jason Schreier (opens in new tab) who spoke to a confidential source who says the event is a "nightmare for Rockstar".In a letter to the public, Rockstar says that it is "extremely disappointed" with the data leak, but says that work on GTA 6 will continue as planned and that the company will have more to share soon on the game's development.All that said and accounted for, we still think that GTA 6 is very likely some years away from release yet, but we're hoping to hear more about the game before the end of the year. Until then, we've gathered what we could from various leaks and rumors across the web to put together this article; just bear in mind we've indulged in a good bit of speculation here as well. GTA 6 is definitely in development. The only question is when precisely developer Rockstar Games will decide to launch the new installment. Rockstar has said "stay tuned," although off the record, some employees think that 2024 seems reasonable.The newest rumor says that GTA 6 could be released in 2023, which is based on publisher Take-Two's large expected marketing budget for the 12-month period ending on 31 March 2024, detailed in a recent financial statement. However, Rockstar has refuted this rumor, telling Gamesindustry.biz (opens in new tab) that those projections are related to third-party commitments.That's not the only thing we can glean from these financial reports. Take-Two is also expecting a 14% growth rate within its fiscal year ending March 2024 which could be an indication of when GTA 6 will release. An analyst from Jefferies reacted to the financial reports by saying: “There are only a handful of titles that can provide management with the confidence to put out such a strong guidance; we believe there is at least one Rockstar IP set to be released by FY24.” In all likelihood, this game would be GTA 6. A recent job post on Rockstar's careers page for a "Cinematic Gameplay Capture Artist" might be interpreted as a good sign for upcoming news. This position, essentially an individual who will record gameplay trailers, could indicate Rockstar has plans to reveal some GTA 6 gameplay in the near future.Adding to this, a YouTuber has recently claimed that a GTA 6 trailer could be coming soon. But, it's worth noting that the internet personality in question doesn't provide any evidence to back up their claims, so this should be taken with a large grain of salt.GTA 6 platforms: PS4, PS5 and moreAs for the consoles you'll be able to play it on, the potential 2023/4 release means we'll be firmly into the PS5/Xbox Series X generation. But it's possible that Rockstar will release a version for the PS4 and Xbox One if it's feeling generous. Rockstar has ported both GTA V and Red Dead Redemption 2 to PC after their respective console releases too, so an eventual PC port also seems likely.GTA 6 characters and story leaks(Image credit: Rockstar Games)The GTA series doesn't follow

one particular set of characters or even a single location through all its games. So anyone hoping to see more of Michael, Franklin and Trevor should temper their expectations. The same thing goes for the city and environs of Los Santos too. A recent slew of leaks suggest that the game may be set in Vice City – Rockstar's fictional city that bears some resemblance to Miami, Florida – and that could line up with a rumor from a Twitter user who purports to be an insider claims that the game will be called GTA Vice, with the letters V and I being potentially capitalized to indicate the roman numeral for six. There have been rumors that Rockstar had been taking an interest in Tokyo, but since Rockstar's vice president Dan Houser has said that he believed "GTA is America", it's unlikely we'll see the game cross virtual borders in that way. As for the beats of the narrative, there's no doubt you'll be indulging in the usual mix of crimes and heists with the odd look into the strange lives of the heroes and villains. One leak from last year claimed we would get a story similar to that of Netflix series Narcos, heavily focused on the operations of gangs and cartels on both sides of the US/Mexico border through the eyes of a player character named Ricardo.The so-called "Project Americas" leaks had fans very excited with claims of a game in development for almost eight years, with three cities to explore; namely Liberty City, Vice City and a new Rio de Janeiro-inspired location, set in the 1970s-80s. However it's become pretty clear that the leaker couldn't back up what they were saying, so while it's fun to imagine what this game would have been like, it's not what we'll end up getting.More recently, a leak has claimed the story would revolve around a Latina protagonist involved in a "Bonnie and Clyde"-style plot. There's potential that this story could be woven in with the previous leaks, but with this many different alleged plots, we'll either need another multi-character story like GTA V, or some of these leaks aren't going to turn out to be true.In September 2022 there was a massive leak of 90 videos from a hacker showing early test footage for GTA 6. Rockstar has since confirmed that the footage leaked was authentic. While we did cover the leak, we are not revealing any information from the videos given the manner by which they were obtained.GTA 6 settingIt was thought that GTA 6 could take place in the 1980s, effectively seeing the game return to Vice City, which is basically Rockstar's take on 80s Miami. But that theory may not come to fruition. A new job post at Rockstar India hints at a modern-day setting for GTA 6, further backed up by speculation for rather reliable tipster Tom Henderson. What form this modern-day setting will take has yet to be made clear; we're hoping for a London setting. As it stands a lot is open to speculation rather than hard facts and solid leaks. Either way, you can expect large areas to explore and a lot of satire. GTA 6 online(Image credit: Rockstar Games)GTA V has enjoyed a long life after its original release in 2013 thanks to the regularly updated GTA Online mode. This lets you play a large variety of game modes or to just free-roam around the map with other players, gaining money you can then spend on cars, clothing, weapons and player housing.It's therefore very likely we'll see a sequel arrive alongside GTA 6. However it's possible that the two experiences will end up separate. GTA Online originally arrived a month after the single player portion of the game launched, and with consoles now capable of installing specific parts of a game rather than the whole package, it's possible Rockstar will decide to separate the two out.Either way, hopefully there will be some way for long-time players of GTA Online to transfer their in-game earnings and items into the new game. Rockstar has earned a huge amount of money from players spending money on microtransactions in GTAO, and no doubt some players don't want this to all disappear with the move to a new generation.Today's best Grand Theft Auto V deals (opens in new tab) (opens in new tab)$59.98 (opens in new tab)View (opens in new tab) (opens in new tab) (opens in new tab) (opens in new tab)$29.99 (opens in new tab)View (opens in new tab) (opens in new tab) (opens in new tab)$41.37 (opens in new tab)View (opens in new tab) Grand Theft Auto IV: Episodes From Liberty City for Xbox 360 is a compilation of two expansion packs that add more missions, characters, and weapons to GTA IV. With the extra content comes new unlockables and cheat codes. The GTA: Episodes From Liberty City cheats are for the Xbox 360 version. There are separate cheats for Episodes From Liberty City on PC and the PS3 version. Lifewire / Bailey Mariner The two episodes are Grand Theft Auto IV: The Lost and the Damned and Grand Theft Auto IV: The Ballad of Gay Tony. Both episodes were originally released as DLC, but the Episodes From Liberty City collection doesn't require any downloads or an Xbox Network account to play. All cheats for Grand Theft Auto IV on Xbox 360 are also compatible with this edition of the game. Cheat codes can be entered as cell phone numbers. Previously entered cheats can be activated at any time from the cheats menu found on the phone. Many of these codes are the same as codes used in the original versions of Grand Theft Auto IV, The Lost and The Damned, and The Ballad of Gay Tony. A few new codes were added with this version as well. Cheat Code Effect 362-555-0100 Restore health, armor, and ammo 267-555-0100 Decrease wanted level 267-555-0150 Increase wanted level 486-555-0100 Weapon set 1 486-555-0150 Weapon set 2 227-555-0147 Spawn Turismo (car) 227-555-0100 Spawn FIB Buffalo (car) 938-555-0150 Spawn Floater (boat) 359-555-2899 Spawn Buzzard (helicopter) 359-555-0100 Spawn Annihilator 227-555-0142 Spawn Cognoscenti (car) 227-555-0175 Spawn Comet (car) 938-555-0100 Spawn Jetmax (boat) 625-555-0100 Spawn NRG-900 (motorcycle) 625-555-0150 Spawn Sanchez (car) Cheat Code Effect 826-555-0150 Spawn Burrito 245-555-0125 Spawn Double T 245-555-0199 Spawn Hakuchou 245-555-0150 Spawn Hexer 245-555-0100 Spawn Innovation 826-555-0100 Spawn Slamvan Cheat Code Effect 625-555-0200 Spawn Akuma (motorcycle) 227-555-0168 Spawn Super GT (car) 359-555-7272 Spawn Parachute 938-555-0150 Spawn Floater (Boat) 625-555-3273 Spawn Vader (motorcycle) 227-555-9666 Spawn Bullet GT 272-555-8265 Spawn APC (tank) 468-555-0100 Randomly change the weather 486-555-2526 Enable exploding sniper rifle bullets 276-555-2666 Super punch Gameplay content of the DLC version of The Ballad of Gay Tony is identical to the Episodes From Liberty City disc content, and multiplayer features are compatible regardless of version. Due to Liberty City map updates, the Episodes From Liberty City version of The Lost and the Damned cannot be used to join multiplayer games with players using the older DLC version. Original radio music from Grand Theft Auto IV isn't included in Episodes From Liberty City, but the game includes new radio stations and music.
