Ielts speaking marking sheet pdf

Rachita Mitra Content Curator | Updated On -Jun 10, 2021 IELTS speaking is one of the toughest sections as the non-English speaking candidates are not much familiar with the different English accents. IELTS is nonetheless a difficult exam with a complicated IELTS exam pattern and IELTS score calculation process. Through this article, we will highlight the IELTS speaking score calculation process. IELTS speaking is a short section of 11 to 15 minutes where a candidate interacts with the professionals through face to face interview. IELTS speaking score range is 0-9 – so the maximum possible score in IELTS speaking is 9 and 0 is the lowest. The marking criteria of IELTS speaking are: Fluency and coherence. Lexical resources. Grammatical range and accuracy. Pronunciation. Marking Criteria for IELTS Speaking in Detail Criterion Details Fluency and coherence(FC) Use of fully appropriate cohesive features Preparing the topic beforehand No break between the conversation Fully versed with the topic Speaking with confidence Lexical resources (LR) Rich vocabulary Compact knowledge of idioms and phrases Ability to talk on unfamiliar topics with great vocabulary and confidence Paraphrasing skills Accurate use of the word and unique style of speaking that looks natural, not artificial or imposed Grammatical range and accuracy (GRA) Accurate use of sentences Ability to mix simple and complex sentences Structural flexibility Pronunciation (P) Proper pronunciation with accuracy and subtility Realistic and comfortable speaking Wide range of pronunciation features Correct Pronunciation Based on these factors, IELTS speaking section is scored on a scale of 0-9. Here, it is to be remembered that 0-9 is the score range for each criterion. find out the IELTS speaking score calculation process in the next section. How IELTS Speaking is Scored? Each section of the IELTS speaking test (FC, LR, GRA, and P) has its own value and altogether makes the total marks. The score is calculated between 0 to 9 pointers. An arithmetic mean is calculated for the scores of different parts of the speaking section. LR+FC+P+GRA/4 For Example- If someone gets marks in lexical resource 8, fluency and cohesion 7, pronunciation 8, grammar range, and accuracy 7. So total marks will be the arithmetic mean of all these scores. 8+7+8+7/4 =7.5 So, the total score of IELTS speaking or IELTS speaking band score will be 7.5. IELTS Speaking Band Descriptors Band Fluency and coherence Lexical resource Grammatical range and accuracy Pronunciation 9 Fluency - self-correction – coherent – appropriate topics development Complete flexible vocabulary with idiomatic language Full range of error-free structures and sentences Full range of pronunciation with precision and subtlety 8 Fluency - self-correction - coherent development of the topics Vocabulary with almost no error - less common and idiomatic phrases - Sentences rarely contain systematic errors Wide range of understandable pronunciation. 7 Noticeable loss of coherence - language-related hesitation - self-correction – connecting ideas Flexiblevocabulary - less idiomatic use - effective paraphrasing Complex structures - error-free sentences - few grammatical mistakes All positive features of Band 6 and a few positive features of Band 8 as well. 6 Lose coherence – improper connectives Familiar with new vocabulary - paraphrases successfully Can use a combination of simple and complex structures with limited flexibility - errors in complex structures Range of pronunciation - mixed control. 5 Much repetition - self-correction - over-used connectives Manages to talk about familiar and unfamiliar topics – limited vocabulary Basic sentence with accuracy - limited complex structures - a few errors that Use a limited range of more complex structures, but that includes a few errors and may cause some comprehension problems. 4 Not able to respond without noticeable pauses – slow - frequent repetition Ability to discuss familiar topics only- convey basic meaning on unfamiliar topics - frequent errors Basic sentence forms - Many errors Limited range of pronunciation 3 Long pauses - limited ability to link simple sentences -simple responses Simple vocabulary - insufficient vocabulary on less-known topics Basic sentences -memorized expressions A few of the features of Band 2 and some, but not all, of the positive features of Band 4 2 Frequent pause - communication skills - improper basic sentence forms. Isolated words or memorized utterances - - 1 No communication is possible. - - - 0 Does not attend - - - Following IELTS speaking tips can help the candidates for a better score in IELTS speaking: Be confident and comfortable Appear realistic, natural, and effortless Use accurate vocabulary Have justification to clarity the answers Stay calm and positive and limit negative thoughts. IELTS speaking needs confidence and if you are confident enough, you can obtain a good IELTS speaking score even after belonging from a non-English speaking country. All you need to have enough practice of IELTS speaking and familiarity with different English accents. *The article might have information for the previous academic years, which will be updated soon subject to the notification issued by the University/College. On this page you will find out how your speaking skills are graded on IELTS Speaking test. IELTS Speaking scores are calculated using 4 criteria: Fluency and coherence (FC) = how clear and structured is your speech. To increase score for FC: connect your sentences by linking words and signpoints extend your answers, add all the relevant details speak smoothly and continuously use pausing correctly Lexical Resource (LR) = how good is your vocabulary. To increase score for LR: use a wide range of vocabulary discuss different topics freely, using appropriate words speak formally or semi-formally choose words accurately use idiomatic language Pronunciation (P) = how naturally you sound. To increase score for P: pronounce words as clearly as possible record your speech and work on the words that you spell incorrectly stress words and sentences correctly use correct intonations try to be easily understood by the examiner See IELTS speaking test simulator. Grammatical Range and Accuracy (GRA) = how good is your grammar. To increase score for GRA: avoid grammatical mistakes try to use more advanced grammatical structures (passive voice, direct speech, different tenses and conditional sentences etc) IELTS Speaking score calculation Each of these criteria receives a score from 0 to 9 points. After that, an arithmetic mean is calculated to determine the section's total score. For example, if your marks are: FC - 7, P - 8, LR - 7 and GR - 6, your total score will be (7+8+7+6)/4 = 7 For example, if your marks are: Fluency and Cohesion: 7.5, Pronunciation: 7.0, Lexical Resource: 7.0, Grammatical Range and Accuracy - 7.5. Then your total score for IELTS Speaking is (7.5+7.0+7.0+7.5)/4 =7.25, which will be rounded to 7.5. At IELTS, want to help boost you to the next level. We want to make sure you don't need to repeat your English language test. That's why we share with you how we test, how we mark your work, and what is important. For IELTS Writing, Speaking, Reading and Listening we'll tell you what examiners look for and how your test is marked. We'll also show you how your overall band score is calculated. Or check how other tests compare to IELTS. Complete official practice writing tasks online and receive a personalised feedback report. That way you'll know where you can improve. IELTS Writing Assist Online Practice your speaking skills with one-on-one coaching with a qualified IELTS expert from IDP. That way you'll know where you can improve. IELTS Speaking Coaching The IELTS Writing test is marked by qualified IELTS examiners who are intensively trained and monitored to ensure consistency and quality of marking, no matter where in the world the test is taken. A minimum of two examiners will mark your Writing test, and sometimes even up to three or four – we do this to ensure the highest level of accuracy and fairness possible. Your Writing test response is scored in the areas of 'task response', 'coherence and cohesion', 'lexical resource', and 'grammatical range and accuracy'. To understand what each of these mean you can view the Writing band descriptors, which have detailed information about each phrase and how they relate to the different band scores that are possible. If you need someone to explain this in person, attend a free IELTS Masterclass. Download the IELTS Writing band task 1 descriptors Download the IELTS Writing band task 2 descriptors The Speaking test in IELTS is just like a conversation that you would have in everyday life. In the test, you will sit in a private, quiet room with a qualified examiner who will engage you in a conversation. While it can be difficult to speak to a stranger, make the most of it! With IELTS, the examiner can slow down for you, speed up or even repeat or rephrase a question if you like – all you have to do is ask. The examiner is there to enable you to perform at your best. Your speaking skills are marked against a number of criteria, including 'fluency and coherence', 'lexical resource', 'pronunciation', 'grammatical range' and 'accuracy'. To understand what each of these mean you can view the Speaking band descriptor, which has detailed information about each phrase and how they relate to the different band scores that are possible. Download the IELTS Speaking band descriptors In the Reading test, you will answer 40 questions. A variety of question types are used, e.g. multiple choice, True/False/Not Given, matching, and sentence completion. Your answers are either correct or incorrect, so the marking is a little different to the Speaking and Writing tests. You will receive one mark for each correct answer, with the total number of marks determining your band score. The tables below indicate the average number of marks required to achieve a particular band score in Academic Reading and General Training Reading. Band score Raw score out of 40 5 15 6 23 7 30 8 35 Band score Raw score out of 40 4 15 5 23 6 30 7 34 8 38 In the Listening test, you will answer 40 questions that relate to audio clips that will be played to you. Your answers are either correct or incorrect, so the marking is a little different to the Speaking and Writing tests. You will receive one mark for each correct answer, with the total number marks determining your band score. The table below indicates the average number of marks required to achieve a particular band score in the Listening test: Band score Raw score out of 40 5 16 6 23 7 30 8 35 The Overall Band Score is the average of the four component scores, rounded to the nearest whole or half band. The component scores are weighted equally. If the average of the four components ends in .25, the Overall Band Score is rounded up to the next half band, and if it ends in .75, the Overall Band Score is rounded up to the next whole band. If the average ends with a fraction below .25 or .75, the overall score is rounded down. Some examples: Reading 6.5 + Writing 5 + Speaking 7 + Listening 6.5 = 25 Divide 25 by 4 = 6.25 Ends in .25 so round up to the next half band Overall band score = 6.5 Reading 6.5 + Writing 5.5 + Speaking 6.0 + Listening 6.5 = 24.5 Divide 24.5 by 4 = 6.125 Ends with a fraction below .25 so round down to the next whole band Overall band score = 6.0 Reading 3.5 + Writing 4.0 + Speaking 4.0 + Listening 4.0 = 19.5 Divide 19.5 by 4 = 3.875 Ends with a fraction above .75 so round up to the next whole band Overall band score = 4.0 The test taker has fully operational command of the language. Their use of English is appropriate, accurate and fluent, and shows complete understanding. The test taker has fully operational command of the language with only occasional unsystematic inaccuracies and inappropriate usage. They may misunderstand some things in unfamiliar situations. They handle complex and detailed argumentation well. The test taker has operational command of the language, though with occasional inaccuracies, inappropriate usage and misunderstandings in some situations. They generally handle complex language well and understand detailed reasoning. The test taker has an effective command of the language despite some inaccuracies, inappropriate usage and misunderstandings. They can use and understand fairly complex language, particularly in familiar situations. The test taker has a partial command of the language and copes with overall meaning in most situations, although they are likely to make many mistakes. They should be able to handle basic communication in their own field. The test taker's basic competence is limited to familiar situations. They frequently show problems in understanding and expression. They are not able to use complex language. The test taker conveys and understands only general meaning in very familiar situations. There are frequent breakdowns in communication. The test taker has great difficulty understanding spoken and written English. The test taker has no ability to use the language except a few isolated words. The test taker did not answer the questions. IELTS invests heavily in the continued development of its test and the processes by which scores are marked, to ensure a fair assessment for all test takers and a reliable result for the organisations that depend on IELTS as a measure of English language skill. Download the IELTS quality and fairness info pack IELTS is unique in that it allows the choice of an Academic of General Training test. Both types of IELTS test measure your skills in reading, writing, speaking and listening, however, the questions are a little different and one test might suit you more than the other.
