Designed to provide a centralized solution for the communication needs of businesses, the UCM6200 series IP PBX appliance combines enterprise-grade voice, video, data, and mobility features in an easy-to-manage solution. This IP PBX series allows businesses to unify multiple communication technologies, such as voice, video calling, video conferencing, video surveillance, data tools, mobility options and facility access management onto one common network that can be managed and/or accessed remotely. The secure and reliable UCM6200 series delivers enterprise-grade features without any licensing fees, costs-per-feature or recurring fees. The same industry-leading platform that we designed for the UCM6100 series, which continues to be enhanced month by month with more and more features and functionalities, will be extended to the UCM6200 series. Looking for a more powerful upgrade? We have redesigned our 8 FXO port model, the UCM6208, to offer the ability to support more users and more concurrent calls, as it supports up to 800 users and up to 100 concurrent calls. UCM6202 and UCM6204 support up to 500 users and 30/45 concurrent calls, UCM6208 supports up to 800 users and 100 concurrent calls Auto Discovery and Zero Configuration of Grandstream SIP endpoints Integrated 2/4/8 PSTN trunk FXO ports, 2 analog telephone FXS ports with lifeline capability and up to 50 SIP trunk accounts Gigabit Netzwerkanschluß mit integrierter PoE Unterstützung, USB Schnittstelle, SD-Karten-Einschub Supports up to a 5-level IVR (Interactive Voice Response) Built-in call recordings server; recordings accessible via web user interface Built-in Call Detail Records (CDR) for tracking phone usage by line, date, etc. Supports multi-language auto-attendant and call queue to efficiently handle incoming calls Strongest possible security protection using SRTP, TLS and HTTPS encyrption Supports any SIP video endpoint that uses the H.264, H.263 or H.263+ codecs A maximum of 3 products can be compared. Please, unselect any of them. Description Technical specs Downloads IP PBX Appliance Grandstream UCM6102 UCM6102: 2 FXO, 2 FXS (30 sim.calls) The UCM6102 IP PBX is a full-featured, easy-to-manage IP PBX Appliance designed to bring enterprise-grade features to small-and-medium sized businesses (SMBs) without the need for licensing fees, costs per feature, or any recurring costs.
