Gb whatsapp pro v 9.00 update

English – Russian WhatsApp Mods (WAPlus – GBWA Pro – OGWA Pro) Are Non-Official WhatsApp Version That Allows You To Hide Double Blue Checks Or Last Connection Time And Many More Features. Material Designed Mod, That Provides Tons Of Features Including Customization, Themes, Changing Styles, App Lock, Conversation Locks, Privacy Mods, And Many More. Download Section WhatsApp Plus v13.00 MediaFire GBWhatsApp Pro v13.00 MediaFire OGWhatsApp Pro v13.00 MediaFire GBWhatsApp Pro version is a somewhat modified version of Original GBWA, and it has dedicated features that are not accessible in any other WAMOD. The best premium WhatsApp that you can get only with this build. I can give a guarantee in that case 😉 One of the best part of this application is; you can spy another WhatsApp account from your account. In other words, you can spy on your girlfriend or boyfriend account with this GBWhatsApp Pro APK. Isn't awesome? One of the exclusive feature and most wanted feature too. And also you can be benefited from many options which are available in the popular wamods these days. It is fully equipped with numerous mods and specially made for hardcore fans who always asks what's new? When a new update comes in. Are you one of them? If yes, then you are at the perfect place which is providing such wonderful blog posts. Make sure subscribe to our Push notifications and Join our telegram broadcast if you don't want to miss the latest updates from our site. What is GBWhatsApp Pro APK? Everyone loves premium. Right? It implies something that doesn't exist in the free version or doesn't end with the Pro tag. Indeed premium app has many highlights that really not available in the general one. Exactly, This GBWhatsapp Pro APK has a unique UI design and some other extra convenient features that everyone would fall in love. It is developed by SAM aka Naeem Ahmed. He is also a creator of Transparent apps like Royal Whatsapp Transparent, GBInstagram Transparent Prime and many other WAMODS. You can find what he contributed till now by clicking this tag #SAM Version Info NameGBWA ProVersion12.0DeveloperAlexSize40 MBPackagecom.gbwaBased on2.21.4.22Last UpdatedJune 18, 2021 Download GBWhatsApp Pro APK for Android (Anti-Ban) Still, there are some options yet to discuss including but not limited to Media Sharing, Choosing Media Player, Auto Reply Messages, Hack Msg tool, Locking Chats and App, backup and language. Currently, English, Spanish, Portuguese, Italian, Hindi are supported by this android application. You can see a bit more translations in future. And finally, this application doesn't need any root privileges to run. So, You can download GBWhatsApp Pro APK from the below download link. Screenshots Features Here are the top features that come with this mod. Have a look into them. Fonts Always using the default font is boring. Right? Now, there is an option to change the font that you like from tons of different styles. At an initial run, it will take longer for downloading the available fonts. So, be with endurance while running the first time. After that, you can freely select any style that you like. Message Scheduler Sometimes it may be a helpful feature to wish friends and family members on their birthdays, anniversaries and other important dates. You can also have this message scheduler with the help of third-party apps, but when you start using GBwhatsApp Pro, you don't have to install any other app. Just add a bit of text in the message scheduler field and set the date, time and receiver. That's it. It will send the message to the person without your help. 3 Dots Menu >> Message Scheduler. Spy WhatsApp Web This is a simple technique to monitor another WhatsApp activity. I already said that this could help you to spy on Girlfriend or boyfriend account by using official Web version. There is no big hack behind this. It is just using the Whatsapp web version on your smartphone with the help of GBWhatsApp Pro APK. GBPro Settings >> Spy WhatsApp Web Privacy Mods A lot of privacy mods that you can get from this GBWhatsApp Pro android application. You can see the basic settings as well as some deep privacy options to protect yourself. Under the General category, you will find these Pause last SeenHide Status ViewAnti-revoke Under Contacts category, you will find these Hide Blue TicksHide Second tickHide Blue MicrophoneHide RecordingHide Typing Under the Group category, you will find these It also has the same settings that are available in the above contact category. Change Background Main You can set any image in the background of the chats, status and calls. Just click on the Load from the gallery option and select the photo/image which you want. Even clear it when you want to restore the default style. Themes and Customisation The themes which are made for Original GBWA, those will work flawlessly on this Premium version. You don't have any doubt regarding this thing. Even, you can download all available themes from our Themes Store and sideload those. Coming to the customisation part, It can able to do such things that you were not aware of yet. It's true. Perfect customisation settings available in GBWhatsapp Pro apk. Just explore it. How to Install GBWhatsApp Pro APK on Android? The installation of GBWhatsApp Pro is a piece of cake. You don't need any technical skill to do that. But, the only thing you have to remember is; take a backup from the Official WhatsApp if you don't want to lose your chats data. Don't Know how to backup? See this video tutorial Note: If you are updating from old GBWhatsApp Pro, then you must take a backup from GB Pro Settings >> Other mods >> Backup then restore it while installing a new version. See this video tutorial Now, read the Installation procedure. Step 1. Download GB WhatsApp Pro APK from our page. Step 2. Go to the download folder and navigate to the APK. Tap On it. You have to Allow Unknown Sources Option while sideloading the APK's.Allow It. Step 3. Again tap on APK to continue the Installation. Step 4. Once Successfully Installed, then open the app from the apps drawer. Step 5. Enter your phone number and tap on Copy WhatsApp data (Only if you did backup otherwise no need). Step 6. Restore it. That's it. Now, Go to the GB Pro Settings and Customise GBWhatsApp Pro the way you want. Download GBStickers for GBWhatsApp Pro Download GBStickers and GBStickers Maker for GBWhatsApp Pro App. These are additional android apps that help you to send beautiful stickers to your friends. More than 2500 stickers are available in this app and all you just need to do is; install the app and open it to add stickers into your GBWA Pro. Size | 58 MB GBSticker Maker is the same as the Personal stickers app. So, the android application lets you create your sticker from the raw images by removing the backgrounds. The best one Right? Size | 5 MB Conclusion One of the best features of this app is; Spy Someone WhatsApp account. If you have any interest in how it is going to work, then try GBWhatsApp Pro APK on your Android device right now. Run a little experiment.
