Developing tactics for listening second edition answer key pdf

Tactics for Listening is designed for unit-by-unit evaluation of students' mastery of the Student Book. (Midterm and final tests are available separately in Expanding Tactics for Listening Teacher's Book.) The tests may be given in a language laboratory or in a regular classroom with a CD player, and they are easily administered to large or small groups of students. Teachers may use the tests to assign grades or to identify areas where students need additional assistance. This test package includes photocopiable student test sheets, an answer key, and a tapescript of the tests. A CD on the inside back cover of the Test Booklet contains the recordings needed to administer the tests. The test items are based on the listening activities presented in the Student Book. To assess students' speaking ability, teachers may use the interviews, role plays, and other speaking activities in the Over to You sections of the Student Book. www.irlanguage.com www.irlanguage.com www.irlanguage.com www.irlanguage.com www.irlanguage.com www.irlanguage.
