Players will only have to aim their guns at the enemies in order to auto fire. Even though it seems like a huge advantage, but it does not turn out that simple as presumed. The aiming precision is quite hard to master in this mode. The advantage is the ease of getting to turn the head of your in-game character with great efficiency rather than having the necessity of having to think about firing at the enemy. The advanced mode in Call of Duty Mobile MOD Apk requires the players to handle their weapons with lots of sensibilities. Players will find all the required buttons for firing or throwing ammo right beneath their thumb, with the option of switching over when needed. Battle Royale mode is a beastly mode where players are always engaged in a head-on battle with real-world opponents charging at them to land the first knockdown blow. A zombie survival mode has also been introduced which will surely spice up the gameplay even more. You can also try our Garena Free Fire MOD APK v1.52.0 (Unlimited Diamonds). Maps are quite interesting The ones who are already familiar with Black Ops will already have an idea about some of the maps in Call of Duty Mobile Mod Apk. The Nuke town map is quite popular amongst gamers, which along with others such as Crash, Hijack and Firing Range offer a great mix of exhilarating gameplay action.
