Gangstar Vegas: World of Crime Ã ¢ â,¬ "An action of the multiplayer crime based on the ideas and concepts of Grand Theft Auto V: a similar three-dimensional universe, the same shown criminals, insignia and shootings, the same Ã ¢ â,¬ Å "Gang WarÃ ¢ â,¬ This hit the metropolis. The case was not without epic equipment: grenade launchers, machine guns, bullet-proof vest - you will have to fight almost continuously! The plot of the history of Gangstar Vegas: the world of Crime is unpretentious, but expressive - the next story of a Novice Mobster is full of unexpected twists, betrayers and obstacles. But what is the result of suffering - sports cars, expensive accommodation and a personal clan that can do A real fell with the click of a finger in the city center. Gangstar Vegas - An exciting shooter, who was created by Programmers of the Corporation Gameloft. The game tells the story of a young wrestler involved in mixed martial arts, which Dov Eline lose in one of the matches. But by chance he won the battle of the contract, everything caused great financial losses in the business of the local bandit, thus violating the napoles of him. The character will have to return the favor, working for an influential mafia, making various tasks. Your hero is envisaged by the dangerous darkened world of criminal authorities, blood bloody bloody and noisy disassembly problems. From previous versions of the toy are very different improved graphic effects, changing weather conditions and excellent lighting and the way in which The world map has increased ten times. The unacceptable giant open world, which has many different features, which is an exceptional sandbox that will surprise fans of this game. An interesting texture, containing a considerable number of exciting places of lightning and do not want to let go. Management from other versions of play can be extremely difficult, and still like the presence of the accelerometer. The creators were used the â €
