Dear friends, today I want to offer you an excellent and absolutely unique resource package. I’m sure you’ll like it because it’s not just a simple resource package, it’s 3D! Yes, 3D! The essence of these textures is that it changes the shape of some items from the usual ugly block look into a more realistic single 3D view. Basically, this 3D Default resource package changes the shape of objects which are most popular in Minecraft and which is captured by the eye more often. You will be pleased with a new kind of excellent graphics of the game. Click to reveal more info, optimizations and personalities of Default 3D + View Content “Select All How to Install Default 3D Resource Pack * Make sure you are using 14w30a or a future version of Minecraft. # Open the folder of the resource package. * Download the resource package. * Open the downloaded .zip file. * Drag the folder inside the .zip into the folder of the resource package. * Place the resource package in your “Selected resource packages.” How to enable/disable templates * Open the folder of the resource package. * Open ‘Default 3D'. * Open ‘assets'. * Open ‘minecraft'. * Open ‘models'. * Open ‘block'. * Search for a .json file with the prefix ‘DISABLED' you would like to enable.
