100 dollar words worksheet answers

A word in dollars is one whose total value is exactly 100 when each of its letters is assigned a value based on its position in the alphabet: a = 1, b = 2, ..., z = 26. some Examples of words in dollars are: contented, cookout, gloves and shades. Can you think of a word in dollars? Try your word by typing it in the box below and clicking on the currency button with the mouse. Adding a verb increases its value for 9 and reduces the target value for the root verb to 91. The addition of s to a word increases its value for 19 and reduces the target value for the word root to 81. Adding a verb increases its value for 30 and reduces the target value for the verb root to 70. Home Copyright Â © 2001 Balmoral Software. All rights reserved.
