As a result, you will become a big fan of Call of Duty Mobile and ready to play in the new season. Then you've come to the right place, because here we present the latest series of tests. If you want to enjoy the latest game, please download CODM Season 7 Test Server APK. Download Link Activision has released a new collection of Call of Duty Mobile Season 10 Public Tests. As with previous test servers, 10 tests of the 2022 mobile season are offered.Android and iOS devices.
This test server is packed with content so players can try out new weapons, weapon balancing, new maps, and more. How to download and play COD mobile on test server 10.2022, it's finally time because here is the public test for season 1022! This test server starts on October 14, 2022 (PT). This time there are two different versions 32-bit and 64-bit. For anyone unfamiliar, 64-bit is more suitable for high-end devices, while 32-bit is generally more suitable for low-end devices. The COD Mobile Season 10.2022 test server is now complete, we recommend downloading the 64-bit version only if you have no problem playing the current version of the game using the highest graphics settings. Here's how to download COD Mobile Season 10 2022 Test Server on Android and iOS devices.
Download the 32-bit Android download APK suitable for low-end devices by clicking here or the 64-bit APK (upper devices) by clicking here. Players should make sure the phone has enough space as the original download size is around 700-800MB and then install the installation of files from unknown sources if not already activated. You can now play Call of Duty Season 10.2022 test server. Download iOS devices for iOS readers, you just need to install the Apple TestFlight app. You can now play the Season 10 2022 test server on your iPhone or iPad. Now, before downloading Call of Duty Mobile 10.2022 test server, there are some things to consider. Initially, the file size is 700-800 MB. Keep in mind that in this test only the first 30 km players in ACT they allow Android and iOS players to stick on the public test server. So be sure to hurry up a bit if you want to keep your spot on the test server.
At the end of the test, the information will be destroyed. As usual, everything you see in the building might not be final, it might be a stroller, it might be artwork or text about the location, or the next update may be released.
This file and the building are also independent of the main design. Therefore, there is no need to uninstall or run the main mobile app. Another separately made application will be installed. Image using Activision, new map,Crossroads was introduced as part of the third anniversary of the 10th season of Call of Duty: Mobile. Previously, Call of Duty: Black Ops was a multiplayer map of the Cold War. New vehicle image via Activision. Cod Mobile Season 10 will introduce a new motorcycle. Dubbed #Jetbikeinnenne, this vehicle appears in the Call of Duty: Advanced Warfare campaign. Below, a zipper that bends in all directions is suspended and the air is allowed to float in meters above it. Its angular armor is designed to deflect enemy fire.
Electric Shock device - Pharo's image via Activision Pharo was added to the game with the start of season 10's test server. It was introduced as a machine gun, which was a pretty good weapon. The weapon is more suitable at close or medium range. New gear precision imaging via Activision has added new equipment to Cod Mobile Season 10, the third update of the anniversary. This device can help increase the edge food of the affected enemy's image and improve extra targeting. The image of three chips from Activision Juhe Chip is three chips that can use a blade to deflect enemy bullets.
This is one of the new devices introduced on the Call of Duty: Mobile Season 10 test server. Related COD Mobile: 5 best emotes you can try in the game, I hope this article on the trial server of 2022 Season 10 was useful. Scroll down for feedback in the comments section.
