Sushma Kumari loves this game, but there are some problems with it. 1) It is always necessary to load it to solve it. 2) When I enter the lobby, it shows that there are 7 members but when I enter 2 or 4 people. I don't like these 2 things to improve it, otherwise the game is really fantastic, the graphics are very beautiful, loves graphics. I will say that only when I have boring people with 1214 that this review is useful. Do you find it useful? ItznotMethis blocks, it took so much time to load. I waited 30 minutes but it doesn't load, this game is a scam and a clickbait. I wasted 50 percent of my battery just waiting. Download this game makes you lose most of your time and don't even worry about loading it. I would prefer to give 0 stars if possible and this game sucks. 299 people thought that this review was useful for about 15 minutes but the game did not upload ... if you are interested in trying this game, please not even read the reviews they mentioned it took about 30 minutes to load the game. .. but I was happy to play and install which caused me a lot of confusion and mood ... don't install! ! !!! As you can see, I was looking for a set of polo shirts in the shop when I noticed that the clothes would not load even after accidentally connecting to the servers. Maybe it's because of my connection. Also, when a game starts between us, I disconnect from the server. It could also be that the connection is bad on my end. ð393 people found this review helpful Did you find this review helpful? The longest I've had since the last update was three full rounds before I was kicked out. It's frustrating because as soon as I get cheats the game suddenly crashes. In normal mode I can't log in or hide for a minute without this problem. PLEASE FIX THIS!! Update: The problem persists, but less frequently. I will update the note. 1130 people found this review helpful.Send a letter to Support@innsloth.com with a screenshot of an error message so that we can help! Eloy Schaabthis shooter!
