It may be necessary to further extract using a usefulness like 7zipÂ, (advice 7zip version 9.20 because it works best in my test): so you can search in the extracted folder: to find the x64 folder with drivers: it is therefore possible to copy this Address as a first: Force Installing the driver via Device Manager To obtain optimal results, remove any USB mouse connected to the system. The touchpad driver version has been updated: if there is one! The driver has not been taken and must be uninstalled. Fortunately this unofficial guide is well reached and many Dell customers have tested and reported the best driver for your system.
